

# ABOUT NABPA

Building the Future of BIM  
Excellence

## Since 2023

The National BIM Professionals Alliance (NABPA) was founded to raise the standards of Building Information Modeling (BIM) and Virtual Design & Construction (VDC) across the Architecture, Engineering, and Construction (AEC) industry.

Our certifications validate skills, our education council trains the next generation, and our members lead the digital transformation of construction.

**In the world of  
construction,  
data is the new  
blueprint**

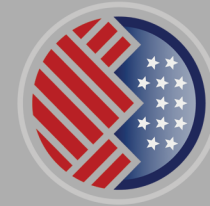

**NABPA turns those dreams into standards  
that shape the future of digital construction.**

**LBIM-PMP**

Licensed BIM Manager

## Our Mission

The National BIM Professionals Alliance (NABPA) connects BIM professionals, contractors, engineers, and educators to promote BIM and VDC standardization across North America.

# PROGRAM OVERVIEW

## LBIM-PMP

The Licensed BIM Manager (LBIM-PMP) certification is designed for seasoned BIM and VDC professionals leading digital construction operations. It emphasizes project execution planning, BIM implementation strategy, leadership, and performance management across multidisciplinary teams and large-scale projects such as hospitals, data centers, airports, and commercial high-rises.

### Module 02 – BIM Standards, QA/QC & Model Governance

- Establish company-wide BIM standards and documentation procedures.
- Implement quality control systems for Revit, Navisworks, and ACC models.
- Learn to audit and maintain model integrity across multiple trades.
- Apply automation tools for BIM validation and performance optimization.

#### Units & Duration

Unit 1 – BIM Standards Development (2 weeks) Unit 2 – QA/QC and Model Auditing (2 weeks)  
Unit 3 – Data and Document Control (2 weeks) Unit 4 – Automation & Integration (2 weeks)  
Exam: BIM Standards & Quality Management (Week 13) | Passing Score: 80%

#### Certification Completion

Pass both module exams and complete a final capstone project. Submit a BIM Execution Plan and Model QA/QC audit report. Final Certification Score: Average of both exams + capstone evaluation. Awarded Credential: Licensed BIM Manager (LBIM-PMP) – NABPA Certified. Master BIM management and leadership for multi-trade coordination. Develop, implement, and monitor BIM Execution Plans (BEP). Lead and mentor BIM teams using standardized VDC workflows. Ensure project delivery excellence through QA/QC and BIM governance.

Licensed Metaverse BIM Specialist

### Module 01 – BIM Execution & Leadership

Understand the full lifecycle of BIM Execution Planning (BEP). Learn to lead coordination meetings and manage multi-trade BIM workflows. Apply advanced planning methodologies aligned with ISO 19650 and PAS standards. Build leadership, communication, and decision-making skills for BIM managers.

#### Units & Duration

Unit 1 – Developing BIM Execution Plans (2 weeks) Unit 2 – Managing Stakeholders & Communication (2 weeks) Unit 3 – BIM Roles, Responsibilities & KPIs (2 weeks)  
Unit 4 – Leadership in VDC Teams (2 weeks) Exam: BIM Leadership & Execution (Week 9)  
| Passing Score: 80%
